

WHITEPAPER

The digital world is becoming a reality in everyone's life year after year and big financial institutions are making their way in the crypto space dragging people attention.

On the market are thousands of choices, but know must relevant project to invest is hard and risk.

Invest in one project that growth with time and give you a passive income by just holding your assents is really a better choice.

Rufus Finance is frictionless yield and liquidity generation smart contract protocol that works by applying 10% fee for each transaction.

With these method we instantly split the fee rewarding holders with 5% and auto locking 5% in Pancake LP or other Exchange LP.

Buying Rufus will ensure you of having invested your money in a project that is going to multiply your investment over time.

Our token initial supply is 100 000 000 000 000 000 and the distribution is done like these:
